ADDRESS ALL COMMUNICATIONS TO ATLANTA, GA.

CABLE ADDRESS:—TREESEEDS—ATLANTA, GA.

A. B. C. CODE 4th EDITION USED.

TERMS: CASH with order or satisfactory references from unknown correspondents. We allow a discount of 5 per cent. for cash with order and 2 per cent. for remittances within 30 days from date of invoice. Unless otherwise arranged, all accounts become due and subject to draft 60 days from date of invoice.

DOMESTIC REMITTANCES are requested by Postal or Express Money Order or Bank Draft. All banks charge now for collecting local checks.

FOREIGN REMITTANCES are payable in U. S. currency through International Money Orders on Atlanta, Ga., Post Office or Bank Draft on New York. We ask that payments not be made in foreign postage stamps or foreign individual checks.

EARLY ORDERS: We do not sell any old seeds and do not take in stock therefore much more than we can be reasonably sure to sell during the ensuing season. It is imperative on this account that orders, especially for large quantities and for early ripening kinds, should reach us at as early a date as possibly convenient. While we anticipate at this writing supply of all kinds here offered, our acceptance of orders is not a warranty for delivery but is subject to crop accidents and limits to crops. All quotations are subject to change without notice.

POSTAGE: We prepay postage on all seeds sold at package rates but charge postage for all seeds sold by weight. Domestic and foreign postage for seeds and roots is 8 cents per pound. Limit of weight of one package in domestic mails is 4 pounds, in foreign mails 12 ounces. Registration fee is 8 cents per package.

PARCELS POST packages are allowed to Germany and a few other countries. The rate is 12 cents per pound or fraction of pound and the limit of weight for a package is 4 pounds and 6 ounces (2kg).

FREIGHT AND EXPRESS. We desire to receive instructions as to the kind of conveyance or we shall ship at our own discretion. Nearly all Express companies allow now a deduction for shipments of seeds and roots of 20 per cent. from regular merchandise rates. All goods travel at risk and expense of consignee.

FOREIGN SHIPMENTS: Unless otherwise instructed we shall hand over all consignments for foreign places to our forwarders, Messrs. R. F. Downing & Co., 13 William St., New York City, or their correspondents in other ports, who will also effect insurance, if desired.

WARRANTY: While we exercise greatest care to have all our seeds, bulbs, etc., pure and reliable, they are sold without warranty and without any responsibility, expressed or implied, in respect to the crop. If our goods are not accepted on these terms we must be informed at once after their inspection upon arrival at destination, to arrange for their return.

An exchange of Catalogues, seed lists, etc. is desired.

ATLANTA, GA.

A. B. C. CODE, 4th EDITION.

DESCRIPTIVE CATALOGUE OF SEEDS OF American Conifers, Trees, Shrubs, Palms, Cacti and Herbaceous Plants AND OF Roots and Bulbs of Herbaceous Plants. 1904--1905.

This is our first catalogue under our present firm but it is in fact a continuation of those sent out formerly by the now discontinued Pinehurst Nurseries, at Pinehurst, N. C., which were in charge of our Mr. Otto Katzenstein during their entire existence.

We take gladly this opportunity to give expression to our appreciation of the many favors shown our Mr. Katzenstein during his former relations and we hope that not only our old friends will continue to let us supply them with their requirements in our lines but that all those, whom this catalogue reaches for the first time, will give us a trial.

It will be our desire to send out strictly fresh seeds only, true to name, in the best quality obtainable and at lowest prices possible.

In the DESCRIPTIONS given in the body of the following lists we have endeavored to be as concise as possible and to give information of interest to the planter.

The NOMENCLATURE continues in its unsettled state. We have used our best judgment and have as much as possible adhered to names, which while perhaps not strictly correct in accordance with recent researches, have a meaning and familiar sound to the consumer. We give the authority for each name and we have cross-referenced where deemed necessary.

The HARDINESS of a plant is so indefinite a term, especially if local climatic and soil conditions are taken into consideration, that we have arbitrarily decided to designate as hardy such plants, which generally survive the winters of Philadelphia and New York (40-42 degrees latitude).

We have omitted from this catalogue quite a number of seeds and of roots and plants, the supply of which was rather doubtful at this writing, but we shall at all times be very happy to submit prices on any lists which may be sent us by our friends and we solicit correspondence.

SPECIAL CABLE CODE.

For the convenience and saving of cable tolls for our customers we have given a cipher to the names of the seeds of conifers and of trees and shrubs offered and we also give here a cipher to state weights from $\frac{1}{8}$ ounce to 5,000 pounds. By this means the weight and name can be given in one word to which can be added one of the following messages:

Zur Bequemlichkeit und um unsern Kunden Depeschekosten zu ermaessigen, haben wir den im Cataloge angefuhrten Coniferen und Gehoelzsamen ein Codewort beigefuegt und lassen nachstehend Codeworte von $\frac{1}{8}$ ounce bis 5000 Pfund folgen. Hierdurch kann Gewicht und Namen der Saemerei in einem Werte telegraphiert werden, dem dann noch die folgenden aus zwei Buchstaben bestehenden Sentenzen vorgestellt werden koennen:

Pour reduire a nos clients les frais des telegrammes nous avons ajoute un nom de code pour les noms des graines de coniferes, d'arbustes dans notre catalogue et nous donnons ci-dessous code pour les poids de $\frac{1}{8}$ oz jusqu' a 5000 lbs. En depechant veuillez reunir le nom du poids et le nom de la graine dans un mot. Vous pouvez aussi ajouter un des noms de code suivants:

Please quote		We offer		We accept	
Geben Sie billigsten Preis	}	fo	}	Wir offerieren	}
Quotez		Nous offrons		Nous acceptons	
		Please ship			
		Senden Sie			
		Expediez			
		}		bu	

Example	}	Please quote 100 lbs Pseudotsuga douglasi
Beispiel		Geben Sie gefl. aeussersten Preis 100 Pfund Pseudot. douglasi
Par exemple		Quotez 100 lbs Pseudotsuga douglasi
		<i>fo — yaba — psen or foyabapsen.</i>

Figures following these messages will indicate the price in U. S. currency,
Der Preis folgt in Zahlen und zwar in dollars und cents.
Le Prix est donne en monnaie Americaine.

Example:—*We offer (offerieren, offrons) 500 pounds Abies concolor at \$1.56 per pound. Tayawnacon 156.*

In connection with our ciphers we use A. B. Code 4th edition.
A. B. C. Code 4te Ausgabe im Gebrauch.
A. B. C. Code 4 ieme Edition en usage.

CONIFERS.

About Sowing Seeds of Conifers and Woody Plants.

Sow small quantities in cold frames or in shallow boxes filled with carefully sifted mellow sandy loam. Larger quantities sow in seed-beds which must be naturally or artificially sheltered from heavy East or Northeast winds. Enrich soil with well rotted manure. Work the soil—a well drained sandy loam—thoroughly to a depth of twelve inches, removing sticks, stones, etc. Destroy weeds before sowing and avoid subsequent annoyance.

Seeds with hard shells soak in almost boiling water just before sowing.

Seeds with thick pulp (as Magnolia) macerate and wash off pulp immediately before sowing.

Seeds which naturally dry up or which “lay over” stratify by placing them in boxes or other vessels between alternate layers of sand, storing them in sheltered places out of the way of mice and other vermin. In due time, sow like any other seeds. Keep stratified seeds moist. Sow broadcast or in drills. Last is preferable as facilitating cultivation. Cover seeds with soil equal to about the thickness of the seeds. Do not cover seeds too deep, especially not those of conifers. After sowing press soil firmly with roller or back of spade and water thoroughly with fine rose. Shade seed-beds until seedlings appear when shade must be removed gradually. Keep beds well weeded at all times.

Half-ounce at ounce rates; quarter-pound at pound rates; three pounds at ten pound rates.

Quotations on larger lots by correspondence. * (Asterisk) means generally hardy.

The sizes given in these lists indicate the heights in feet (3 ft. = 1 m) attained by the plants in their natural state.

HERBACEOUS SEEDS.

ABOUT SOWING SEEDS OF HERBACEOUS PLANTS: Sow in late fall or early spring either in cold frames or preferably in shallow boxes, filled with finely sifted mellow sandy loam. Press soil firmly before sowing and cover seeds with loam to their own height after sowing. Water well and carefully and do not let the soil get dry. To prevent "dampening off" sprinkle pulverized charcoal over and between the seedlings. Shade carefully. Prick off as soon as the second leaves appear. Cover seed-boxes with mulch of chopped shagnum moss or some similar material, to retain even moisture.

Quarter-ounce at ounce rates; quarter pound at pound rates. No seed will be invoiced at less than 10 cents. We will send 10-packages of any of the following seeds, or twelve 10-cent packages for one dollar, postpaid.

Leaves in flat rosette, turning orange and purple in fall.			
ALLIONIA NYCTAGINEA , Michx. Wild Four-o'- clock25		
1-3 ft. Red flowers. Dry soils.			
AMSONIA TABERNÆMONTANA , Walt.....	.20		
1-2 ft. Flowers pale blue, in graceful terminal panicles. Moist soils.			
ANTIGONON LEPTOPUS , H. & A.....	.15	.25	
Excellent tender climber for greenhouse. Rose-pink flowers in fine racemes.			
ANEMONE CYLINDRICA , Gray. Long-fruited Anemone15		
2 ft. Flowers greenish white. Dry woods.			
" GLOBOSA , Nutt.15	2.50	
1 ft. Flowers bright red.			
" PATENS , L. Windflower. Anemone Pasque Flower.....	.15	2.00	10.00
8 in. Flowers blue to purple or white in earliest spring. Very fine plant for sandy soil.			

	Pkge	.Oz.	Lb.
ANGELICA AMPLA, Nelson, Rocky Mountain Angelica30		
4-8 ft. Rare. White flowers in large umbels. Moist half shade.			
APOCYNUM ANDROSÆMIFOLIUM, L. Dogbane15		
3-5 ft. Flowers in cymes, pink, bell shaped. Summer.			
AQUILEGIA CÆRULEA, James. True Wild Blue Columbine25	1.50	12.00
1-2 ft. Flowers very large, bluish-white. Choice for half shade.			
" CHRYSANTHA, Gray. Golden Columbine15		
3-4 ft. Rare. Flowers pale yellow or claret. Many flowered. A very desirable plant.			
ARGEMONE PLATYCERAS, L. & O. Colorado Silver Poppy20	.75	6.00
2-4 ft. Flowers very large white, rarely purple. Sunny exposure in light soils.			
" PLATYCERAS HISPIDA, Prain25	.85	7.50
2 ft. Flowers large, glossy white with golden centre, Plant beset with bristly hair. Sow annually.			
ARTEMISIA ARBUSCULA, Nutt. Sagebrush20		
1-2 ft. Shrubby. Nearly evergreen.			
" FILIFOLIA, Torr25		
2-3 ft. Shrubby. Foliage feathery. Fine for any soil.			
" FRIGIDA, Willd. Mountain Sage25		
6-12 in. Foliage silvery moss-like. Very fine.			
" GNAPHALODES, Nutt.20		
2-3 ft. Very hairy throughout. Dry soils.			
" LUDOVICIANA, Nutt. Western Mug Wort20		
Aspect white woolly. Dry banks.			
ASCLEPIAS SPECIOSA, Torr15	1.50	
2-3 ft. Flowers purple.			
" TUBEROSA, L. Pleurisy Weed15	.75	
2-3 ft. Flowers yellow to brilliant orange. Sterling plant for any soil.			
ASTER ASCENDENS, Lindl.20	5.00	
3 ft. Pale lilac.			
" AZUREUS, Lindl.20		
2-3 ft. Many-flowered sky-blue.			
" CANESCENS, Pursh25		
1-2 ft. Rare. Flowers pale shades of pink to purple.			
" COMMUTATUS, Gray20	5.00	
1 ft. Flowers white, abundant.			
" FENDLERI, Gray20		
1 ft. Flowers rose lilac of peculiar shade.			
" FOLIACEUS, T. & G.20		
2 ft. Many-leaved. Flowers lavender. Very early.			

	Pkge.	Oz.	Lb.
ASTER LÆVIS, L.....	.20	3.00	
2-3 ft. Large flowers blue to lilac.			
" MULTIFLORUS, Ait.....	.20		
1-2 ft. Rare. Mayn-flowered. Purple.			
" PORTERI, Ait.....	.20	4.00	
1 ft. Rare. Flowers pure white.			
" UNDULATUS, L.....	.25		
2-3 ft. Flowers pale violet.			
ASTRAGALUS BISULCATUS (Hook.) Flowering Vetch.....	.25	1.50	
" CAROLINIANUS, L. (canadensis, L.)... ..	.20		
" DRUMMONDI, Dougl.25	1.50	
" HYPOGLOTTIS, L.....	.15		
" PARRYI, Gray.....	.25		
" PICTUS, Gray.15		
" SHORTIANUS, Gray25		
<i>All Astragalus are rather dwarf handsome plants and of easy cultivation.</i>			
BAPTISIA AUSTRALIS, R. Br. Wild Indigo.10	.50	
1-3 ft. Flowers indigo blue in racemes. Spring.			
" TINCTORIA, 'R. Br. Wild Indigo10	.50	
2-3 ft. Flowers bright golden yellow in racemes.			
BRICKELLIA GRANDIFLORA, Nutt. Tassel Flow- er.....	.25	4.50	
2 ft. Flowers yellowish white, tassel-shaped, drooping. Very large leaves. Very distinct plant for moist places.			
" WRIGHTI, Gray.....	.25		
Larger and more spreading than former. Flowers smaller, purplish tinged.			
CALLIRHOE INVOLUCRATA, Gray. Poppy Mal- low.....	.15		
1-2 ft. Trailing. Flowers throughout summer crimson to cherry.			
CALOCHORTUS GUNNISONI, Wats. Mariposa Lily.20	3.00	
1 ft. Exquisite flowers of great daintiness.			
CANNA FLACCIDA, Roscoe15		
2 ft. Flowers iris-like yellow. Showy plant for moist soil.			
CAMPANULA ALLIARIÆFOLIA, Willd. Bell flower15		
" LATIFOLIA, L.....	.15		
" NOBILIS, Lindl.....	.25		
" RANUNCULOIDES L.....	.15		
" ROTUNDIFOLIA, L.....	.15		
" TRACHELIUM, L.....	.15		
<i>Campanula are always showy, of easy cul- ture and constant bloomers throughout the sum- mer.</i>			

	Pkge.	Oz	Lb.
CASSIA MARYLANDICA, L. Wild Senna.....	.10	.35	1.25
3-6 ft. Foliage feathery. Flowers yellow in August. Moist.			
CASTILLEJA ACUMINATA, Pursh. Painted Cup. .25			
2 ft. Flowers in scarlet showy bracts. Rich woods.			
CHRYSOPSIS FOLIOSA, Nutt.....	.25	3.00	
1 ft. Flowers golden yellow, first season from seed.			
CLEMATIS COCCINEA, Eng.....	.15		
4-8 ft. Branching climber. Flowers scarlet or purple.			
" DOUGLASI, Hook.....	.15	.80	
Low climber. Flowers deep purple without, lighter outside.			
" FREMONTI, Wats.25	1.25	
1 bushy. Rare. Long blooming.			
" SUPERBA40		
Selections from largest blooms through all shades of red, blue and cream. An exquisite assortment.			
" ORIENTALIS, L.25	2.00	
Strong climber. Flowers yellow showy.			
" PITCHERI, T & G.....	.20	1.50	
Rare. Climber.			
" See also under Trees and Shrubs.			
<i>Clematis grow easily from seed, often germinate in two to six weeks after sowing. All produce very showy flowers and very ornamental plumose fruits.</i>			
CLITORIA MARIANA, L. Butterfly Pea.....	.15	.50	
Low climber. Foliage trifoliate, glossy. Flowers large, pea shaped, light blue. Exquisite plant for lighter soils.			
CROTALARIA SAGITTALIS, L. Rattlebox.....	.10	.50	
1 ft. Flowers yellow, pea shaped. Seeds in pods, with stiff glossy black walls. When ripe, seeds will rattle in them on touch.			
DARLINGTONIA CALIFONICA, Torr.....	.50		
Rare and most interesting of all carnivorous plants. Seed supply short. Sow at once upon receipt in moist moss.			
DELPHINIUM ALBESCENS, Rydb. (carolinianum album)20	2.00	
2-3 ft. Very rare. Flowers creamy white.			
" CARDINALE, Hook. True Western Larkspur .25.	2.50		
2-4 ft. Flowers of magnificent scarlet shade. Not garden grown.			
" GEYERI, Greene (D. scopulorum, Gray) ..	.20	2.00	12.00
2-3 ft. Flowers large. Intense blue or purple.			
" OCCIDENTALE, Wats.....	.35		
4 ft. Rare. Flowers very deep blue.			
<i>Use Delphinium in shady and preferably deep places, though they will succeed in any soil.</i>			

	Pkge.	Oz.	Lb.
DICENTRA EXIMIA, Torr. Bleeding Heart15	2.00	
1 ft. Foliage deeply fern-like cut. Flower heart-shaped, deep rose. Lovely plant forming large clumps.			
DIONÆA MUSCIPULA, Ellis, Venus Fly Trap50		
Very rare and wonderfully interesting carnivorous plant, occurring in but one limited section of North Carolina. Sow in chopped moss. Seed supply very short this year.			
DODECATHEON PAUCIFLORUM, Greene, Shooting Star25	5.00	
1 ft. Flowers cyclamen-like deep rose. Very handsome.			
DROSER A BREVIFOLIA Pursh.50		
Diminutive plant with dainty white flowers.			
ROTUNDIFOLIA, L. Sundew.25		
Very interesting small plant. Droseras come up well from seed.			
ECHINACEA PURPUREA, Moench. Purple Cone Flower20		
3-5 ft. Flowers purple to crimson, with brown cone-shaped centres. Very showy bloomer throughout summer in rich soil.			
ECHINO CYSTIS LOBATA, T. & G. Wild Cucumber10	.50	3.50
Rapid growing climber. Fruits are bladdery and very showy. Soak seeds before sowing.			
ERIOCARPUM SPINULOSUM, Nutt. Cut-leaved Golden Aster35		
6-12 in. Rare. Leaves dark green pinnate. Flowers yellow rayed. A very choice acquisition			
ERIOCAULON DECANGULARE, L. Pipe Wort.15	.80	
Scape 2-3 ft. Flowers grayish white in button-shaped heads. Very odd bog plant.			
ERIOGONUM CAMPANULATUM, Nutt.15		
All Eriogonum are very interesting on account of their fine yellow flowers on very large umbels.			
“ FLAVUM, Nutt.15		
“ UMBELLATUM, Tarr.15		
ERIOPHORUM VIRGINICUM, Cotton. Grass.10	.50	
2-3 ft. Rare. Heads woolly, pinkish white, resembling cotton bolls. Interesting bog plant.			
ERYNGIUM GIGANTEUM, Bieb. Sea Holly20		
“ OLIVERIANUM, Laroche.20		
“ YUCCÆFOLIUM, Michx.15	1.50	
Eryngium are tall growing plants with finely divided, often glaucous, foliage. Flowers white or blue. Very effective.			
EUPHORBIA ROBUSTA, Eng. Rocky Mountain Spruce25	1.50	
Low. Foliage very ornamental. Flowers brownish yellow in large panicles. Very showy.			
FRASERA SPECIOSA, Dougl. Columbo.25		
3-4 ft. Biennial. Dotted flowers in showy panicles. Foliage in rosette. Rich dry soil.			

	Pkge.	Oz.	Lb.
GALACTIA GLABELLA , Michx. Milk Pea10	.45	
2-4 ft. Twining. Leaves bright green, trifoliate. Flowers reddish purple, abundant. Splendid for dry soils.			
GALAX APHYLLA , L.50		
Very choice low plant. Foliage rich green to bronze, much used for decorative work. Seed scarce.			
GAILLARDIA ARISTATA , Pursh.15		
1-3 ft. Wild type for many garden varieties.			
GAURA COCCINEA , Nutt20	2.00	
Dwarf. Flowers red to scarlet.			
GENTIANA ALBA , Gray. White Gentian25		
Flowers snow-white to dull green.			
" ANGUSTIFOLIA , Mx. Narrow-leaved Gentian25		
Leaves light green, narrow. Flowers bright blue, in clusters.			
" BIGELOVII , Gray25		
Flowers purple to bright blue. Form enormous clumps.			
" BRACTEOSA , Greene35		
Very rare. Flowers intense blue.			
" PARRYI , Eng.35		
Dwarf. Flowers very intense blue. Dry rocks.			
" SAPONARIA , L. Soapwort25		
Very showy. Flowers light blue. Rare.			
<i>Gentiana prefer generally damp shady locations. They come well from seed.</i>			
GILIA AGGREGATA , Spreng.20		
2 ft. Flowers pink to fiery red. Exquisite biennial.			
GRINDELIA SQUARROSA , Dunal.15	.85	
2 ft. Flowers aster-like, yellow, showy. Late fall. Biennial. Dry soils.			
GYMNOLOMIA MULTIFLORA , B. & H.25		
1-2 ft. Flower rays very showy golden yellow. Profuse bloomer.			
HABENARIA BLEPHARIGLOTTIS , Poir.35	3.00	
Flowers in dense racemes, snow-white. Moist ground near brooks. One of our finest ground orchids.			
" CILIARIS , R. Br. Yellow-Fringed Orchid.35	3.00	
Flowers in dense racemes of a brilliant orange shade and long-lipped. A most beautiful plant.			
HELIANTHELLA QUINQUENERVIS , Gray20	3.00	
2-4 ft. Flowers large, rays pale yellow. Very distinct plant.			
HELIANTHUS MAXIMILIANI , Schrad.15	1.75	
" ORGYALIS , DC.15		
" PUMILUS , Nutt.15	1.50	
<i>Helianthus are always desirable as ornamentals and easily grown from seed. H. pumilus is quite a dwarf species.</i>			
HEUCHERA SANGUINEA , Eng.20		
6-9 in. Foliage mottled. Flowers bright scarlet. Grand ornamental.			
INULA HELENIUM , L. Elecampane15		
4-9 ft. Foliage large. Flowers showy and numerous. Rays yellow.			

	Pkge.	Oz.	Lb.
IPOMAEA LEPTOPHYLLA, Torr. Bush Morning Glory	.10	.80	
3-5 ft. Flowers rose-pink or purple. All summer. Enormous roots. Soak seed about a week before sowing.			
IRIS HEXAGONA, Walt.	.10	.40	
2-3 ft. Flowers deep-blue with white, yellow and purple veins. Very desirable for damp locations.			
" MISSOURIENSIS, Nutt.	.10	.70	
1 ft. Flowers pale blue or white. Any soil.			
JATROPHA STIMULOSA, Mx. Stinging Nettle	.10	.40	
6-9 in. Leaves finely mottled. Flowers waxy snow-white. Roots reach considerable depth. Plant covered with bristly hair. Dry soil.			
KRYNITZKIA VIRGATA, Gray. Miner's Candle	.25		
Foliage narrow in rosette. Flowers snow-white on very short stems, profuse. Very rare. Dry places.			
LACHNANTHES TINCTORIA, Ell. Red Root	.20	.80	
2-3 ft. Leaves 12-18 inches long. Flowers woolly yellow in lateral or terminal heads. All summer. Very handsome for moist places.			
LATHYRUS ALBUS,	.15	2.00	
" NIGER, Bernh.	.15	1.50	
" POLYMORPHUS, Nutt.	.25		
" ROTUNDIFOLIUS, Willd.	.15		
" SPLENDENS, Kell. Pride of California.	.20	1.50	
<i>Choice trailing plants with pale-rose to deep-purple flowers.</i>			
LEPACHYS COLUMNARIS, T. & G.	.15		
1-3 ft. Flowers cone-shaped yellow. Blooms first year from seed.			
" COLUMNARIS PULCHERRIMA	.20	2.25	
2 ft. Flowers brown or scarlet. Larger than of previous.			
" PINNATA, T. & G.	.15		
2-3 ft. Light yellow flowers.			
LEUCOCRINUM MONTANUM, Nutt. White Sand Lily	.35		
Dwarf. Foliage grass-like. Flowers, in earliest spring, in clusters, fragrant, white about 1½ in. cross and 2 in. long.			
LIATRIS GRAMINIFOLIA, Willd. Button Snake Root	.10	.65	
3-6 ft. Flowers deep purple in dense spike. Late fall.			
" ODORATISSIMA. See Trilisa.			
" PUNCTATA, Hook.	.15		
1-2 ft. Flowers pink-purple crowded on very dense spike. Excellent, summer and fall.			
" SQUARROSA, Willd. Blazing Star	.10	.80	
1-2 ft. Flowers purple in dense spikes. Early summer.			
LILIUM SUPERBUM, L. Turk's Cap Lily	.20		
4-5 ft. Flowers orange. A very superior native species.			
LOBELIA CARDINALIS, L. Cardinal Flower	.20	2.00	
1-3 ft. Foliage dark green. Flowers intensely cardinal colored in close racemes. Summer. Very popular.			

	Pkge.	Oz.	Lb.
LUPINUS ARBOREUS, Sims.20	.60	4.00
4-6 ft. Shrubby. Flowers yellow in loose racemes. Fragrant.			
" ARGENTEUS, Pursh.20	1.60	
1-2 ft. Foliage silvery. Flowers in showy racemes, indigo-blue.			
" DIFFUSUS, Nutt. Deer Cabbage.10	.25	2.00
1-2 ft. Leaves and stems intensely silvery woolly. Flowers pale-blue on dense racemes. Plants forming large clumps, many racemed. Very showy for dry banks. Spring.			
" PARVIFLORUS, Nutt.15	1.20	
1-3 ft. Flowers light blue to pale purple.			
MALVASTRUM COCCINEUM, Gray. Scarlet Aster.15	2.00	
6 ft. Leaves deeply lobed. Flowers bright scarlet in racemes. Summer. Any soil.			
MENTZELIA LAEVICAULIS, T & G.20		
1-2 ft. Flowers star-like yellow. Showy.			
" NUDA, T. & G.15		
2 ft. Flowers creamy-white.			
" ORNATA, T. & G.25	2.00	
2-3 ft. Flowers creamy-white; 5 in. across. Open afternoon and evening.			
<i>A wonderfully fine class of herbs. Sow seed in well drained light soil in permanent location.</i>			
MERTENSIA LANCEOLATA, DC. Lungwort.25		
6-12 in. Flowers blue. Dry soil and half shade.			
" SIBIRICA, Don. Prairie Bluebells.30		
2 ft. Foliage glaucous. Flowers blue in loose graceful panicles. Luxuriant grower in moist rich soil and half shade.			
MITCHELLA REPENS, L. Partridge Berry.10	.40	2.50
Evergreen trailer. Coral-red berries adhere all winter. Very ornamental for shady moist positions.			
OENOTHERA ALBICAULIS, Pursh. Tall Evening Primrose.20		
3 ft. Flowers showy white. Annual.			
" CAESPITOSA, Nutt.20		
Dwarf. Fragrant flowers silky white to pink.			
" GOODINGII, Nels. [O. brachycarpa, Gr.]	.20		
Dwarf. Flowers very large, yellow. Half shade.			
" PALLIDA, Lindl.20		
2 ft. Profuse flowers white, very large.			
" SERRULATA, Nutt. Sundrops.20		
1 ft. Flowers yellow. Summer. Day blooming.			
OXYTROPIS LAMBERTI, Pursh. "Loco" Weed.20		
1 ft. Leaves pinnate, silvery. Flowers in spikes, blue, 1 in. across.			
" LAMBERTI SPICATA.20	2.50	
1 ft. Flowers white. Resembling above.			
" MULTICEPS, Nutt.25		
Dwarf alpine. Flowers purple.			

	Pkgs.	Oz.	Lb.
PASSIFLORA INCARNATA, L. Passion Flower... .	.10	.30	2.50
Luxuriant vine. Flowers large pinkish white with triple purple crown of exquisite design. Fruits of hen's egg size contain whitish juice of a pleasant subacid taste.			
PEDICULARIS GROENLANDICA, Retz. Elephant's Head.....			25
1 ft. Flowers crimson purple in spike about 4 in. Wet soil.			
PENSTEMON ACUMINATUS, Dougl.15	1.50	
1 ft. Flowers large pale lilac.			
" BARBATUS, Nutt.15		
3 ft. Flowers bright scarlet. Excellent.			
" CAERULEUS, Nutt.15	2.00	
1 ft. Flowers showy blue in compact racemes.			
" GLABER, Pursh15	1.20	
1-3 ft. Flowers large sky-blue.			
" GLABER ALPINUS, Gray35		
6-9 in. Rare. Flowers azure-blue in dense racemes.			
" GRACILIS, Nutt.35		
1 ft. Flowers pale lavender.			
" HUMILIS, Nutt.20		
Dwarf. Flowers deep purple.			
" SECUNDIFLORUS, Benth.35		
2 ft. Flowers lilac or purple. Splendid			
PHLOX DOUGLASI, Hook.35		
Dwarf creeper. Flowers white to purple. For sandy soil.			
" SUBULATA, L. Moss Pink. Mixed or 3 separate colors ..			.35
Dwarf. Foliage narrow, prickly. Flowers large, from snow-white to light pink and deep red. Forms compact tufts and is of greatest value as ground cover. Blooms early spring and fall.			
PHYSOSTEGIA VIRGINIANA, Benth. var alba. .	.15	1.50	
3-4 ft. Flowers white in July and August. Blooms first year from seed. Excellent for rich moist soils.			
PHYTOLACCA DECANDRA, L. Pokeweed.....	.10	.25	1.50
4-6 ft. Stout growth. Stems bright red, much branching. Handsome in flower and fruit. Any soil.			
PRENANTHES RACEMOSA, Michx.35		
2-3 ft. Flowers in long nodding purplish racemes.			
PRIMULA PARRYI, Gray25		
Low alpine. Flowers in magnificent shades. From selected plants.			
RHEXIA MARIANA, L. Deer Grass.....	.10	.50	
1-3 ft. Leaves narrowly lanceolate. Stems sharply 6-angled. Flowers large and showy, pink to purple. Seed vessels gracefully urn-shaped. Moist half shade.			
" VIRGINICA, L. Meadow Beauty.....	.10	.45	
6-12 Leaves strongly veined. Flowers bright purple with yellow stamens. All summer. Moist half shade.			

	Pkge	Oz.	Lb.
ROMNEYA COULTERI, Harvey. Californian Tree Poppy25	1.20	
6-12 ft. Half shrub. Flowers very large, white and fragrant. Exquisite plant for any well drained soil. Grows well from our fresh seed.			
RUELLIA CILIOSA, Pursh. Wild Petunia.....	.15		
1 ft. Flowers petunia-like.			
SALVIA AZUREA, Lam. var. grandiflora20	2.25	
4-5 ft. Flowers clear azure blue on long stiff stems. Fall. Blooms first year from seed. Deserves a place in every collec- tion.			
SARRACENIA FLAVA, L. Trumpet Leaf.....	.10	.60	
2-3 ft. Pitchers tall, yellow with open throat. Hood brown, large, rounded. Yellow flowers large. Very showy. Early spring			
" PURPUREA, L. Pitcher Plant10	.60	
1 ft. Pitchers more prostrate, deep purple. Hood purple- veined, large, and broad. Flowers deep purple. April.			
" VARIOLARIS, Mx. Spotted Trumpet Leaf10	.60	
9-15 in. Pitchers erect, yellowish green, often whitish mot- tled. Hood purple veined, bending over. Flowers bright yellow. April. Rare.			
<i>Sarracenias demand well drained moist locations.</i>			
SCHRANKIA ANGUSTATA, T. & G. Sensitive Briar25		
3-5 ft. Decumbent trailer. Foliage finely pinnate and truly sensitive. Pink flowers like those of Mimosa pudica. Dry shade. July.			
SCUTELLARIA BRITTONI, Porter. Skull Cap. .35			
Small pretty plant with blue flowers. Dry soil.			
SEDUM STENOSEPALUM, Pursh. Stone Crop....	.20		
Dwarf moss-like alpine for rockeries.			
SENECIO DOUGLASII, DC.....	.10	1.25	
Flowers numerous, golden yellow. Dry soil.			
SILENE VIRGINICA, L. Fine Pink.....	.10	.75	
1-2 ft. Flowers brilliantly crimson to scarlet. All summer. Very effective for low ground.			
SISYRRHINCHIUM ANGUSTIFOLIUM, Mill. Blue-eyed Grass.....	.10	.50	
1 ft. Foliage grass-like. Flowers dainty, violet blue.			
SOLIDAGO NANA, Gray30		
" RIGIDA, L.15	1.50	
" RIGIDISCUA, T. & G.20		
" SPECTABILIS, Gray.....	.25	2.50	
<i>These are all very desirable species—1 to 3 ft. tall. Non-spreading and willing bloomers.</i>			
SPIGELIA MARYLANDICA, L. Pink Root.....	.30		
1 ft. Flowers red on outside and yellow inside, trumpet- shaped, in racemes.			
STANLEYA PINNATA, Britton. False Cleome... .15	1.25		
3 ft. Flowers golden yellow in long racemes. Dry lime soil.			

	Pkg.	Oz.	Lb.
STILLINGIA SYLVATICA, L. Queen's Delight..	.10	.40	
2-3 ft. Flowers yellow-green in umbels. Grows well from seed.			
TEPHROSIA VIRGINICA, L. Devil's Shoestring..	.10	.60	
2-3 ft. Roots spreading. Foliage pinnate. Flowers pea-shaped, handsome red and yellow. Excellent as sand binder.			
THALICTRUM POLYGAMUM, Muhl. Meadow Rue.....	.15	1.50	
4-8 ft. Foliage ample, Adiantum-like. Flowers large, white in enormous panicles.			
TRADESCANTIA ROSEA, Vent. Rose Spider-wort.....	.15	1.00	
6 in. Foliage grass-like. Flowers rose, profusely all summer. Handsome border plant for any light soil.			
TRILISA ODORATISSIMA, Cass. Vanilla Plant..	.20	.80	
2-3 ft. Foliage has fragrance of vanilla. Flowers purple in panicles. Roots very fibrous. August. Very fine plant.			
VALERIANA EDULIS, Nutt. Orange Tobacco..	.25		
2-4 ft. Foliage thick, strongly veined. Flowers yellowish white on long panicles. Roots eaten by Indians.			
" SEPTENTRIONALIS, Rich. Mountain Valerian	.25		
2 ft. Flowers very early, snow-white. Very desirable.			
VIOLA ADUNCA, Smith. Wood Violet.....	.20		
Flowers white with purple veins.			
" ALSOPHILA, Greene. White Marsh Violet..	.35		
Flowers white, rather large. Moist locations.			
" CANADENSIS, L. Canadian Violet.....	.15		
Flowers white, tinged purple. Large.			
" COGNATA, Greene. Western Blue Violet...	.20	5.00	
Flowers lilac. Forms large clumps.			
" DELPHINIFOLIA, Nutt. Mesa Violet.....	.25		
Cut-leaved. Flowers very large, lilac-purple.			
" NUTTALLII, Pursh. Yellow Violet.....	.20	4.50	
Flowers bright yellow, tinged purple at back. Sunny dry.			
" OVATA, Nutt. Prairie Violet.....	.35		
Flowers rose, purple, blue or white.			
" PEDATA, L. Bird's Foot Violet.....	.30		
Leaves pedate. Flowers pale lilac to purple, enormous. Dry fields.			
VIOLA PEDATIFIDA, Don. Meadow Violet.....	.25		
Flowers blue. Damp half shade.			
" RYDBERGII, Green. Colorado Violet..	.30	4.50	
Enormous dark green foliage. Flowers white tinged, purple on back. Nearly all summer. Rare.			
XYRIS BREVIFOLIA, M.. Yellow-eyed Grass...	.10	.50	
6-12 in. Flowers small, yellow, iris-shaped in light-brown globular spike, which resembles a diminutive pine cone. Bogs.			
" CAROLINIANA, Walt.....	.10	.50	
2-3 ft. Larger in every part than above.			
ZYGADENUS BUTTALLII, Gray. Wild Hyacinth.	.25		
1-2 ft. Flowers yellow in spikes. Spring. Very handsome. Prairies.			

ROOTS AND BULBS.

Most of the Kinds Offered Here are Described in the Foregoing Pages. Many of the Plants of This List will be Collected and early orders are very desirable.

We can generally supply a far larger collection of roots and bulbs than we list here and shall be glad to quote on your list of wants.

Five of one kind at 10-rates. Forty of one kind at 100 rates. Price for large quantities by letter.

Flowers snow-white. Entirely novel and rare.		
“ CAPITATA PARVIFLORA.....	.60	3.00
Flowers rich purple. Earliest bloomer.		
“ COCCINEA, Floral Firecracker.....	.60	3.00
Flowers brilliantly crimson tipped with green.		
“ IXIODES.....	.60	3.00
Flowers fine yellow.		
“ IXIODES SPLENDENS.....	.50	2.50
Flowers improved yellow. Very fine.		

	10	100
BRODIAEA LACTEA40	1.50
Flowers white. Handsome for forcing.		
" LAXA50	2.50
Flowers blue purple, many flowered. Exquisite.		
" MULTIFLORA60	3.00
Flowers violet. Very late bloomer. Handsome.		
" PEDUNCULARIS60	3.00
Flowers enormous umbels, porcelain colored.		
" PURDYI60	3.00
Very distinct with purple flowers.		
" VOLUBILIS80	4.50
Twining. Very rare. Flowers daintily pink.		
<i>Brodiaeas are hardy plants with numerous exquisitely colored flowers of a waxy texture, in heads or umbels. Fine as cut flowers. Loose well drained soil. Wood-land or rockery.</i>		
CALOCHORTUS ALBUS50	1.75
Splendid tulip-shaped flowers.		
" AMOENUS ,50	1.75
Flowers tulip-shaped, glowing pink. Excellent.		
" BENTHAMII65	2.00
Flowers yellow.		
" CATALINÆ	1.50	12.00
Very early glorious bloomer. Flowers white or lilac with blackish spot at base of petals.		
" CLAVATUS	1.50	12.00
Flowers very large deep yellow. Indispensable.		
" HOWELLII ,	1.50	12.00
Flowers finely fringed with hairs, straw colored.		
" MAWEANUS MAJOR . Cat-Ears70	1.75
Flowers silky white, filled with soft blue hairs.		
" NITIDUS	1.00	7.50
Unique, especially hardy. Flowers large white with indigo spot.		
" NUTTALLII ,75	4.50
Splendid white flowers.		
" VENUSTUS , mixed colors70	3.50
Exquisite flowers in all shades.		
" VESTA	1.00	7.50
Flowers enormous, white with red centre and back of petals purple. Heavy clay soil.		
<i>The Mariposa Lilies are hardy and quite indispensable bulbs. Flowers are large, often several inches across, satiny and of very dainty coloring. Plant in perfectly and deeply loosened soil and water but sparingly. Mulch where winters are very cold.</i>		

	10	100
CAMASSIA ESCULENTA50	1.50
“ CUSICKII	1.00	7.50
“ LEICHTLINII85	6.00
<i>Foliage similar to that of hyacinths. Flowers are light blue or cream, very profuse and in long succession, lily-like on rather tall stout stems. Moist clayey soils.</i>		
CANNA FLACCIDA75	3.00
CHIMAPHILA MACULATA, Prince's Pine60	2.50
Evergreen white-lined foliage. Flowers dainty white. Half shade.		
CLITORIA MARIANA. Butterfly Pea65	4.00
COOPERIA DRUMMONDI60	2.50
“ OBERWETTERII60	2.50
“ PEDUNCULATA.60	2.50
The Sand or Rain Lilies are very handsome early bloomers and will adapt themselves to any kind of soil. Very desirable.		
CYPRIPEDIUM ACAULE, Moccasin Flower. Strong.	1.50	8.00
Flowers large, purple with whitish lip. Dwarf.		
“ CALIFORNICUM	3.00	20.00
Rare. Flowers yellow. Strong grower.		
“ MONTANUM	4.50	35.00
Very rare. Flowers white. Excellent.		
“ SPECTABILE	3.00	22.50
Best of all. Rare. Flowers have soft rose pouch and white petals.		
<i>Plant Cyripedium in boggy or peaty soil in the shade.</i>		
DARLINGTONIA CALIFORNICA. Budded plants... ..	1.50	10.00
Without flower buds.....	1.00	8.00
DIONAEA MUSCIPULA75	3.50
DODECATHEON HENDERSONI, Red Flowering Cowslip.....	.75	3.50
“ PATULUM, Yellow Cowslip.....	1.00	4.00
“ TETANDRUM.....	.60	3.00
<i>Splendid. Bloom in earliest spring. Hardy. Good well drained garden soil.</i>		
DROSER A BREVIFOLIA60	3.00
“ ROTUNDIFOLIA50	2.00
EPIGAEA REPENS, Trailing Arbutus. clumps.....	.60	3.00
Flowers waxy white to rose, deliciously fragrant. Early spring. Half shade, leaf mould.		
ERIOCAULON DECANGULARE60	3.00
ERIOPHORUM VIRGINICUM.....	.60	3.00

	10	100
ERYTHRONIUM AMERICANUM, Dog's Tooth Violet	.35	1.50
Very earliest spring. Flowers yellow with dark spots near base.		
" CITRINUM65	3.50
Flowers cream with bright yellow centre.		
" GRANDIFLORUM60	3.00
Flowers golden yellow. Fine alpine. Leaves not mottled.		
" GIGANTEUM35	2.00
Flowers very large, cream with brown spots near base.		
" HARTWEGII35	2.00
Flowers light yellow. Very hardy and early. Fine.		
" HENDERSONII60	3.00
Flowers light purple with dark purple centre. Splendid.		
" REVOLUTUM60	3.00
Flowers white to purple.		
<i>The lily-like nodding flowers appear very early on slender stems. Leaves generally finely mottled. Leaf mould in shady places.</i>		
FRITILLARIA COCCINEA85	5.00
Flowers crimson.		
" LANCEOLATA85	5.00
Flowers yellow to greenish.		
" GRACILIS	1.00	6.00
Flowers black purple, distinctly checkered.		
" PUDICA85	5.00
Low. Flowers clear yellow fragrant.		
" PLEURIFLORA85	5.00
Flowers very early, reddish purple. Excellent.		
" RECURVA85	5.00
Flowers clear scarlet outside, golden yellow with red spots inside. Best of all.		
<i>Hardy early bloomers for rockery or woods. Heavy clay or rich garden soil.</i>		
GALACTIA GLABELLA40	2.00

“ SESSILE, var. californicum.....	.90	7.50
Flower pure white with purple center. Strong grower. Cool shade in damp rich leaf mould.		
VIOLA PEDATA.....	.60	3.00
XYRIS BREVIFOLIA.....	.60	3.00
“ CAROLINIANA.....	.45	2.50

RHODODENDRON CATAWBIENSE.

The Rose Laurel is undisputedly the choicest of all American Laurels and it is found in only a restricted section limited to the highest summits of the Southern Alleghanies, from North Carolina to Tennessee, where our extensive fields are located.

The gorgeous flowers of this species appear on large trusses and are of shades of exquisite lighter or darker pink. The foliage is large deep-green and persistent. The plants are at least as hardy as *Rhododendron maximum*. Their value for ornamental planting is unsurpassed. The superiority of the TRUE *Rhododendron catawbiense* as a parent for hybridizing purposes over the so-called *catawbiense*, so often offered in Europe under that name, which in reality are generally hybrids with *ponticum* or *arboreum* blood, is also to be considered very carefully.

We collect our plants from open woods where they grow under light shade in good loamy and fairly gravelly soil, which is wonderfully inducive to the formation of a system of fine roots, holding a solid ball of earth.

We take a special pride in our way of selecting, digging and transporting these plants and from the letters of commendation before us it seems evident that we know how to please our customers.

RHODODENDRON MAXIMUM.

Our supply of this, now so universally used and admirable evergreen comes from the fields in the Northern Alleghanies in Pennsylvania, etc. We restrict our output to the very finest grades only, which are sure to give pleasing results. The plants are well rooted with good balls of earth and they have fine bushy tops with foliage to the ground.

KALMIA LATIFOLIA.

We supply these beautiful shrubs either from our Northern or Southern reservations. The plants are perfectly shaped in every way, have deep green foliage and are generally covered with buds. The roots hold a substantial ball of earth.

IN GENERAL.

We can supply selected plants of all these kinds in sizes from six inches up to six feet and even taller and in quantities from a single half dozen specimens to any number of carloads. The prices will largely depend upon the quantities and sizes required but they will be found very reasonable in all instances, especially if the superior grade is considered, which we ship. We shall gladly give all information relating to prices, approximate capacity of cars, freight rates, planting instructions or whatever else may be of interest to intending purchasers and we cheerfully solicit correspondence.

ORNAMENTAL NURSERY STOCK.

We are growing a good line of fine, hardy woody plants and shall with pleasure send our Wholesale List to all wholesale consumers, upon request.
